Flexible LED Displays

**Creative Designs  
Indoor  
Convex or Concave Shapes**

# F SERIES

Flexible LED Display

**Double-side**  
visualization available

**IP30 - IP65**  
High protection

**8 mm**  
Ultra-thin

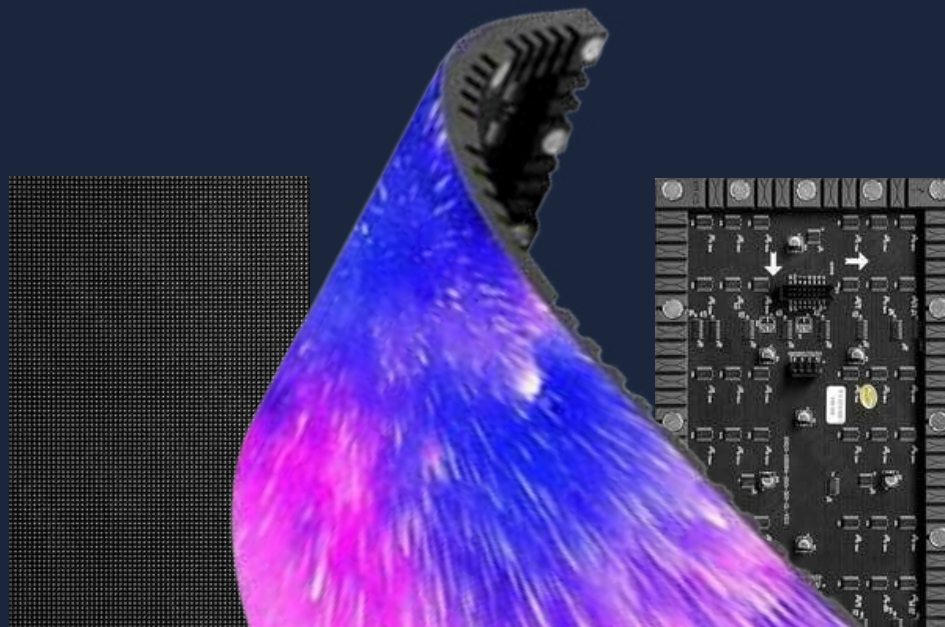

**3.840 Hz**  
High refresh rate

**600 - 5.200 nits**  
High brightness

**100.000 hours**  
Long service life

**Standard module size**

320 x 160 mm

**Ultra-thin module**

8 mm

8 mm

### Convenient installation

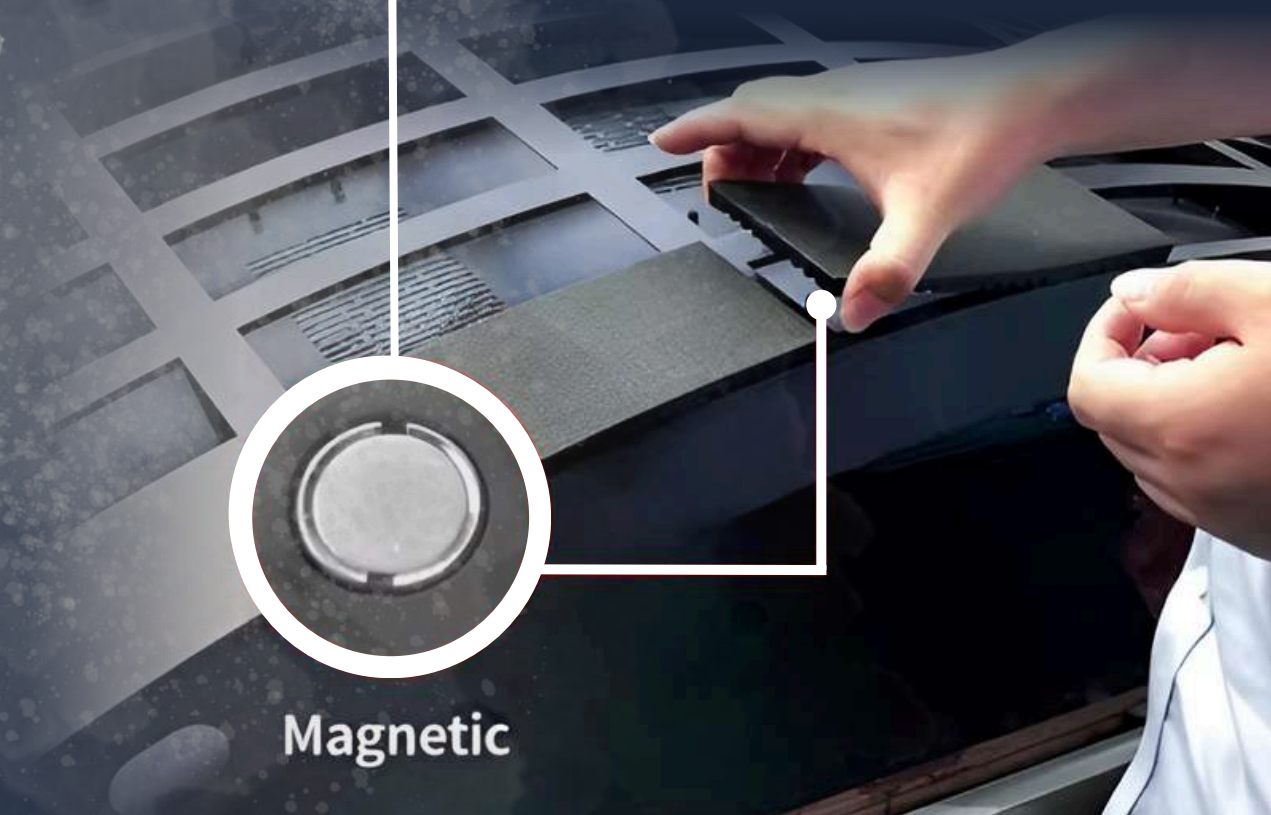

Silicone modules with top elasticity  
Easy magnetic assemble over metallic curved structure  
Powerful magnetic system

### Effortless maintenance

Front service

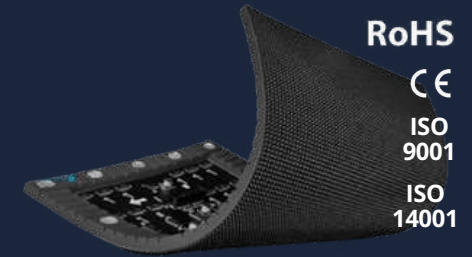

Magnetic
